Subject: Politicians are called to "Enforce the Law" on "Banks and Bankers"

Dear The Hon Bernie Ripoll MP,

We are a small family Company (Bank Victims Pty Ltd). Certain information has come to our attention which proves 16 banks have operated outside the law and have with the assistance of FOS and ASIC been able to operate their elaborate operations of corrupt banking practices.

Only now through the dedication of investigators can we connect all the dots to the banks unconscionable actions.

All supporting evidence is contained in this article on our website

<http://bankvictims.com.au/financial-planners/item/11596-politicians-are-called-to-enforce-the-law-on-banks-and-bankers>

Would you please give us your attention in examining the evidence. We hope the leading Government can make the necessary changes to stop the banks from producing such unjust contracts. It is only the Government who can change the banks from their unconscionable practices. We have 16 banks who must be accountable and the offenders must be prosecuted.

Thank you for your time.

Kind Regards,
Russell Cousins
